Subject: FW: Meeting with DEQ on riparian options

Tom – Is there an OOO Conference Room available on Jan. 7th @ 10:00am? Teresa, Alan, and I will be meeting with one or two people from OR DEQ. We'll need a conference phone line so Alan and Peter can call in. Josh is checking to see if Ryan is available and I hope Pete will be available too.

Lets shoot for Tues. Jan. 7th at 10:00am. I'm open other times too if that doesn't work. Lets meet in the EPA office, 5th floor. Dave

An EPA/DEQ huddle sounds like a good idea. I am open Thursday and Friday this week and most of next week except for Monday, for starters.

This is going to be an important meeting with ODF to discuss possible riparian management options that will inform FPA rules. I'd appreciate an opportunity to sit down with you before we meet with ODF to get your thoughts and ideas on riparian management options. Maybe Ryan could join us . It could enable EPA to better push for DEQ's positions and understand the dynamic of the DEQ and ODF process for utilizing RipStream data and other science in developing options. As always EPA will be sensitive with information we share in our discussions given the importance of continued DEQ/ODF collaboration. We should include Alan Henning and Teresa Kubo who could be playing a bigger role in OR FPA and CZARA forestry issues down the road. We could also ask Peter Leinenbach model different options to get a better feel for options that have a better potential for meeting

PCW. He could also work directly with Ryan. Let me know when you and I can get together. Happy New year. Dave
